

*Congratulations to our 2022 Award winners!*

**Brooke Mellon, May '22  
Kent State University**

Hello, my name is Brooke Mellon (she/her) and I am originally from Pittsburgh, Pennsylvania. I am currently a senior attending Kent State University. In May of 2022, I will graduate with a Bachelor of Science in Education for Integrated Mathematics. I will also have a minor in Mild to Moderate Special Education. I am working towards an Ohio licensure for Adolescence to Young Adult (7-12) in Integrated Mathematics, but I am also working on transferring my certification to be able to teach in another state, like Pennsylvania. My primary career goal is to teach math to middle or high school students in a smaller, suburban school district in the Pittsburgh area. I would like to embrace myself in a tight-knit community where I am able to make an impact on all the students I teach. One of my favorite mathematical content areas is calculus. I am a big fan of the arts; I love theater, dance, and fine arts.
