

# 2019 PERC Educator Excellence Awardee

**Debrah Evans**

DeeDee Evans is a recent graduate of the University of Pittsburgh's MOSAIC program with a Master's in Education with certifications in special education and chemistry. Prior to starting a teacher education program, she received a BM in Music Therapy and Chemistry from Slippery Rock University in 2016. She worked for two years at a local nursing home as a music therapist, and is now thrilled to begin her journey as an educator. This upcoming school year, she will be a special education teacher at Northgate High School (which she connected with at PERC!). Thank you PERC for this amazing opportunity!
